

PROCEDURES TO REGISTER MASTERCARD DEBIT CARDS FOR MASTERCARD SECURE CODE

Secure Code is a service that helps protect MasterCard cardholders against unauthorized Internet transactions by using identifying information created by the cardholder. Once the cardholder activates the service, the card cannot be used at a participating Internet merchant without authentication. When a MasterCard cardholder enrolled in SecureCode uses his or her card for an Internet purchase at a participating merchant, a pop-up window displays requesting the cardholder to enter a password similar to using a PIN for a face-to-face transaction. Once the password is entered, the information is authenticated and the transaction will be submitted to the bank for authorization. This service is available to all of our MasterCard cardholders – Platinum, Business and Health Savings.

Please direct the customer to: <https://secure.shazam.net/securecode> to sign up.

Confirm SecureCode *

Please use letters and numbers only.

Personal Greeting *

As yet another security measure, we ask you to supply a Personal Greeting. When you see this message in the SecureCode window, that's your guarantee you are actually dealing with your card issuer and not an imposter. Your Personal Greeting must be 1-30 characters. If this card is held jointly, all the Personal Greetings will be displayed at the same time when shopping at a participating merchant.

Personal Greeting

Now just click the "Register" button and allow about two seconds to receive your MasterCard SecureCode registration confirmation.

Once you Register, you will get a confirmation “Thank you for registering.”
